

Our vision is for ALL children to be safe and healthy; thriving physically, socially, emotionally, and educationally; well-nurtured by their family and community.

RACISM IS TRAUMA

Trauma is toxic and contributes to adverse childhood experiences (ACEs) and environments that have lifelong consequences.

Childhaven condemns all forms of racism, hate, bigotry and entrenched systems of oppression.

We believe that every human has equal and infinite value.

Through a healing-centered continuum of care, we focus on elevating relational health in all places where children live, learn, and play.

Childhood trauma is closer than you think.

It's the girl next door, whose mother battles severe depression.

It's the boy whose parents both work overtime, struggling to keep stable housing.

It's the girl whose family faces racial prejudices countless times a day.

It's the boy whose married parents live in fear of deportation.

It's the girl whose father struggles with substance abuse, self-medicating from his own childhood trauma.

It's any child, from any family.

And it's not just a childhood problem.

Childhood trauma lasts well past childhood, affecting the entire community.

Childhood trauma and adversity are our biggest problem.

Strong relationships are the antidote.

Childhaven is addressing the crisis of childhood trauma and adversity through relationship, partnership and innovation.

And it starts with the child, every child...

Childhaven. Because childhood trauma is everyone's trauma.

Hours of counseling visits in 2019

Wraparound with Intensive Services: WISE combines a team and strengths-based approach with collaborative and culturally-relevant services. WISE is Washington's most comprehensive program for young children with significant social, emotional, and behavioral needs.

Early Support for Infants & Toddlers: ESIT birth to three services assist infants and toddlers with delays in their early development. The program provides home and community-based services to help children achieve developmental milestones, plus support for parents and caregivers that build upon each family's strengths.

Early Learning: Our Early Learning program includes classrooms in multiple communities, home-based services, and community based partnerships. We offer Head Start, ECEAP, Early ECEAP, home visiting, Kaleidoscope Play and Learn groups and therapeutic support for children in childcare and preschool.

Child & Family Counseling: Childhaven's therapists support families and children from birth to 24 years, providing therapeutic care and counseling services with a focus on: infant/early childhood mental health, relational health therapies, teen substance use, trauma-informed care, and whole child well-being.

Community Based Programs: Our community-based programs provide a variety of supports to children and families in the places where they live, learn, and play. Supports include RAYS UP youth mentoring, kinship, and family navigation services that are embedded within pediatric primary care.

Creative Expression: Creative and Social Emotional Learning (SEL) based tools, resources and training for any kid or community in need of healing. Art with Heart curricula and therapeutic art activity books help kids to identify and explore emotions while learning emotion management skills and building resilience.

Childhaven, connecting kids and families
with healing centered care.
